

Avon County Head & National Sculling Head

Well done to all those who raced at Avon County. Several of the athletes went well enough to claim places in crews for the National Sculling Head. The draw for the National Sculling Head is now on line through our website. It is a huge entry with 46 J14 octuples and many other crews!

Boats for the National Sculling Head will be de-rigged after final training sessions this week and loaded at 4pm on Sunday. A small team of Monmouth residents is all that is needed to do this. Please let me know if you can make it.

Crews decided so far are on the website. Just the Year 9 octuple to confirm, which I expect to do later today after speaking to Jon Beane who took yesterday's training session.

Easter Training Camp in Belgium

A reminder about the meeting covering details for the camp this Thursday at 6pm at the Rowing Club. It is not compulsory, but advisory, particularly if your son/daughter is a first timer. If you are unable to be there, I will send the details by "athlete post". Please e-mail if you feel this may be unreliable. I do need to see all passports and EHIC cards at the meeting or before to collect numbers and confirm they are current. I can do this after any training session this week, if you are not intending to be at the meeting.

Thank you for the final cheques received so far. May I please have the remainder as soon as possible (£260 payable to "MCSBC").

Half Marathon - Sat 14 March

The final information for this major event is now on the website. Please read the letter carefully as there are a number of changes to times and groups.

We have just under 2 weeks until this major event. A big push from everyone please to raise as much money as possible to enable our successful racing to continue.

Regards

DC
